Max Power **18.37 bhp**

About YZF R15 V3

Yamaha YZF R15 V3 is a sports bike available at a starting price of Rs. 1,72,409 in India. It is available in 3 variants and 3 colours with top variant price starting from Rs. 1,73,725. The YZF R15 V3 is powered by 155cc BS6 engine which develops a power of 18.37 bhp and a torque of 14.1 Nm. With both front and rear disc brakes, Yamaha YZF R15 V3 comes up with anti-locking braking system. This YZF R15 V3 bike weighs 142 kg and has a fuel tank capacity of 11 liters.

The YZF-R15 changed the 150cc segment in the Indian market the way the CBZ did when it was launched. It was an everyday motorcycle that could genuinely be used as a trackday tool. The second version of the R15 traded practicality for more focused performance, but the advent of the KTM RC200 meant that a far better performance was available for the sportbike enthusiasts at a similar price. The R15 Version 3.0 reduces that gap significantly with technology. On the list is now

a BS6 engine with a few more ccs, but featuring variable valve timing which takes the maximum power output to nearly 18.3bhp with a peak torque output of 14.1Nm. It also gets all-LED lamps and an all-digital LCD instrument cluster that displays a wealth of information, including when the Variable Valve Actuation switches to the different camshaft profile.

While the global model gets goodies like upside down forks, the domestic version features conventional telescopic forks to keep the costs in check. The pillion seat seems to be positioned a little lower, at least visually, which should address some of the pillion complaints. The rear side panels have a Ducati Panigale-style gap which looks attractive when viewed from behind. Grab handles for the pillion have also been cleverly integrated, which was given a miss in the Version 2.0. The motorcycle features disc brakes at both ends and is now equipped with dual-channel ABS as standard equipment. Meanwhile, with the BS6 version, the motorcycle now features a radial tyre as standard for the rear, side-stand engine cut-off switch and dual-tone horns.

The R15 Version 3.0 BS6 is available in three colour shades of Racing Blue, Thunder Grey, Darknight.

Yamaha YZF R15 V3 Expert Opinion

Good Things

- Excellent handling characteristics
- Potent and a high-revving 155cc engine
- Instrument cluster is great to look at

Could be Better

- Riding position is a bit aggressive
- Uncomfortable for pillion
- Quite expensive

BikeWale's Take

The YZF R15 V3.0 has been a successful premium product from Yamaha. Right from the first generation, this motorcycle has been a benchmark for comparing with other motorcycles in the segment. One of the best options in the Indian two-wheeler market to become better at motorcycling.

2018 BikeWale Track Day - Yamaha YZF-R15 V3.0

02 April 2018 Ranjan R. Bhat

For the 2018 BikeWale Track Day, I wanted to get my elbow down on a Yamaha YZF-R1M at the Valencia track in Spain. But then I was reminded of our budgets and my capabilities by the wide chicken strips on my Apache. So we settled for the next best thing – a Yamaha YZF-R15 on the MMRT in
